

# LACUNZA

*Natural comfort*

## Lacunza is... **HISTORY**

Our roots lie in the Sakana valley, in the Navarre region of Spain. We were born and raised here, and our business is marked by more than 50 years of work and a non-stop forward path.

For more than half a century, we have forged our business' unique personality based on the sustainability of the environment, innovation, technology, design and customer orientation.

From the original iron foundry and subsequent cookstove and fireplace factory, LACUNZA has undergone a remarkable evolution and development. This is evidenced in our range of products, models, materials and energy sources, as well as the continued incorporation of quality, innovation and design into all our products.

## Lacunza is... **COMMITMENT**

At LACUNZA, we have set a benchmark for cookstoves, wood-burning stoves and fireplaces. We design, manufacture and market all our products.

Our greatest strength is our personnel and their commitment to our company. We strive to foster respect for the social, economic and environmental surroundings and through this, we give back to the environment.

## Lacunza is... **SUSTAINABILITY**

At LACUNZA, the importance of taking care of our forests is clear to us. Our manufacturing goal is for all our products to have the greatest energy efficiency with the smallest ecological footprint possible. We care for and replant forests that provide one of the greatest sources of heat and energy: wood.

# Built-In

# Silver

Silver 1000

## CHARACTERISTICS

- Available in 800 and 1000mm options
- Black cast iron interior panels
- Two 5 speed optional centrifugal fans 300m<sup>3</sup> p / h
- Stainless steel removeable ash pan
- Full glass door
- 200mm or reduced to 180mm flue connection
- Double combustion
- Includes 4 sided colour coded frame
- 800 Silver = 10 to 12 kW / h
- 1000 Silver = 12 to 14 kW / h

Optional Fans Digitally Controlled

Silver 800

Cast Iron Interior

## Aroa 700 Insert

## Midi 700 Insert

Aroa

### CHARACTERISTICS

- Sheet steel insert
- Black refractory brick interior
- Large glass door for expansive view of fire
- 200mm or reduced to 180mm flue connection
- Includes 25mm 4 sided colour coded frame
- Convection casing as standard
- Double combustion
- 700 Aroa = 10 to 13 kW / h

Black Refractory Brick

Double Combustion

Midi 700

### CHARACTERISTICS

- Cast iron body
- Cast iron interior
- Includes two speed dual axial fans
- Stainless steel removeable ash pan
- 200mm or reduced to 180mm flue connection
- Includes 4 sided colour coded frame
- Double combustion control
- 700 Midi = 10 to 12 kW / h

Cast Iron

Double Combustion

# Adour CLID 800 Insert

# Adour CLI/CLD 800 Insert

Adour CLID

## CHARACTERISTICS

- Sheet steel insert with three glass sides
- Cast iron interior panels
- Optional 5 speed centrifugal fan 300m<sup>3</sup> p / h
- Stainless steel removeable ash pan
- Two optional hot air ducts
- 150mm flue connection
- Double combustion
- Adour CLID = 10 to 13 kW / h

Adour CLI

## CHARACTERISTICS

- Sheet steel insert with two glass sides (Front & Left or Front & Right)
- Cast iron interior panels
- Optional 5 speed centrifugal fan 300m<sup>3</sup> p / h
- Stainless steel removeable ash pan
- Two optional hot air ducts
- 150mm flue connection
- Double combustion
- Adour CLI or CLD = 10 to 13 kW / h

## Itaca Insert

## Nickel D/S Insert

Itaca 120 CV

### CHARACTERISTICS

- Guillotine vertical sliding door
- Available in 1000 and 1200mm
- Thermotte interior
- Includes 900m<sup>3</sup> p / h centrifugal fan
- 5 Speed remote controlled
- Cast iron base and stainless steel ash pan
- Four hot air ducts
- 200mm flue connection
- Includes 4 sided colour coded frame
- Double combustion control
- Equipped with adjustable wheels and legs
- Itaca 100 & 120 CV = 17 to 21 kW / h

Nickel 1000

### CHARACTERISTICS

- Sheet steel double sided insert in 800 and 1000mm options
- Black vermiculite panels
- Black refractory stone base
- Stainless steel removeable ash pan
- Full glass doors opening from both sides
- 200mm or reduced to 180mm flue connection
- Double combustion control
- Includes two 4 sided colour coded frames
- 800 Nickel = 15 to 17 kW / h
- 1000 Nickel = 17 to 19 kW / h

# Freestanding

# Atlantic 600 Series

Atlantic 604

603

604

605

## CHARACTERISTICS

- Steel stove 60cm wide and 85cm high
- Available in three base options 603, 604 & 605
- Black Vermiculite interior
- Full glass door
- Cast Iron grid and stainless steel ash pan
- Double combustion control with air wash
- 150mm flue top connection
- Atlantic 600 = 12 to 14 kW / h

## Atlantic 610 Series

## Atlantic 613R

Atlantic 613

### CHARACTERISTICS

- Steel stove 60cm wide and 110cm high
- Available in 3 base options 613, 614 & 615
- Black Vermiculite interior
- Full glass door
- Cast Iron grid and stainless steel ash pan
- Double combustion control with air wash
- 150mm flue top connection
- Atlantic 610 = 12 to 14 kW / h

613

614

615

Atlantic 613R Corner

### CHARACTERISTICS

- Steel stove 60cm wide and 110cm high
- Made specifically for corner installations
- Black Vermiculite interior
- Full glass door
- Cast Iron grid and stainless steel ash pan
- Double combustion control with air wash
- 150mm flue top connection
- Atlantic 613R corner model = 10 to 12 kW / h

# Tarbes

# Biarritz

Tarbes

## CHARACTERISTICS

- Curved Cast Iron stove
- Curved glass door
- Cast Iron interior
- Concealed handle
- Cast Iron base and stainless steel ash pan
- Double combustion control with air wash
- 150mm flue top or rear connection
- Optional cooking glass (only with rear connection)
- Tarbes = 9 to 11 kW / h

Biarritz

## CHARACTERISTICS

- Full Cast Iron stove
- Full glass door
- Cast Iron interior
- Cast Iron base and stainless steel ash pan
- Double combustion control with air wash
- 150mm flue top connection
- Biarritz = 8 to 10 kW / h

Ash Pan

Optional Cooking Glass Inlay

Full Cast Iron

Full Cast Iron | Full Glass Door

## Sagra

## Silver F/S

### CHARACTERISTICS

- Steel plate stove
- Vermiculite interior
- Stainless steel ash pan
- Double combustion control with air wash
- 150mm flue top connection
- Cast iron door
- Sagra = 12.5 to 14 kW / h

Sagra

Cast Iron Door

Sensitive Air Control

### CHARACTERISTICS

- Available in 800 and 1000mm options
- Cast iron interior panels
- Two optional centrifugal fans 300m<sup>3</sup> p / h
- Stainless steel removeable ash pan
- Full glass door
- 5 Speed digitally controlled fans as optional
- 200mm or reduced to 180mm flue connection
- Double combustion control
- 800 Silver = 11.5 to 13.5 kW / h
- 1000 Silver = 13 to 15 kW / h

Verona 1000 Freestanding

### CHARACTERISTICS

- Carbon steel double sided 1000mm
- Black vermiculite panels
- Black refractory stone base
- Stainless steel removeable ash pan
- Full glass doors
- 200mm or reduced to 180mm flue connection
- Double combustion control
- 1000 Verona = 15,6 to 22 kW / h

## Verona F/S W/B

Verona F/S W/B

### CHARACTERISTICS

- Carbon steel double sided 1000mm
- Black vermiculite panels
- Black refractory stone base
- Stainless steel removeable ash pan
- Full glass doors
- 200mm or reduced to 180mm flue connection
- Double combustion control
- Wood storage box as a base
- 1000 Verona = 15,6 to 22 kW / h

Committed to  
**QUALITY**

We are a company focused on the design, manufacture and marketing of cook stoves, wood-burning stoves and fireplaces. Through a Quality Management System based on ISO 9001, we undertake to comply with applicable requirements and to continually improve the effectiveness of the Quality Management System.

## Kitchen Stoves

## Etna 7T Wood Cooker

## Vulcano Wood Cooker

### CHARACTERISTICS

- Closed wood-burning kitchen stove
- Enameled exterior & stainless-steel interior
- Available in black & 90cm only
- Firebox and oven door with glass as standard
- Chrome fittings
- Air controls for controlled cooking
- Glass cooking top or lift hinged glass top to cook on cast iron
- Firebox max 50cm logs with double combustion
- 150mm flue rear connection
- Etna 7T = 9 to 11 kW / h
